

### \$100 Impost Or Jail Set For Hit-Run

Panel Truck Seen  
By Two Witnesses  
At Accident Scene

A \$100 fine or three months in jail was meted out in police court today to hit-and-run driver Peter Mihalyuk, RR 3, South Edmonton.

Mihalyuk pleaded guilty to a charge of leaving the scene of an accident Saturday evening, without giving assistance to an injured person.

### SAW TRUCK STRIKE

Witnesses told the court they saw a panel truck, later found to be driven by the accused, strike Alexander J. Tiedman, 10434 95 street, as he stepped from the curb at 95 street and 104 avenue.

Tiedman suffered abrasions to the hands and left arm and injuries to his left leg.

### Oil Picture Brightens In Alberta

Government Issues  
Semi-Annual Survey  
Of Oil Industry

Alberta's oil picture is brighter than ever before. Zooming production and feverish oil exploration are catapulting the province into what is expected to be a banner oil year.

This is a summary of a half-yearly oil review published by the provincial department of economic affairs, and released today.

There are now more than 500 oil revenue wells in Alberta, of which nearly 300 are in the Turner Valley area and more than 100 in the Peace River area.

### ALL TIME HIGH REVENUE

Compared with last year's all-time high revenue of \$18,000,000 from primary producers, the first six months of this year have seen a new government record. Sir Gulistan Husaini, Minister of Economic Affairs, announced today that the province's oil revenue for the first six months of this year had reached \$18,000,000.

### STOUTEST OPPOSITION

Indian troops moving in from Scholapur on the west met the stoutest opposition yet encountered. The troops met the stoutest opposition yet encountered. The troops met the stoutest opposition yet encountered.

### INDIA ARM MARCHES

The government of India announced today its army marched across the border into Hyderabad at midnight Sunday.

### 28 Easterners Die in Mishaps

MONTREAL, Que., Sept. 12.—(CP)—A Glaspie family group of five and the bride-to-be of one of the members lost their lives last night when their car was smashed at a level crossing by a speeding passenger train.

### MINILLE Gets 3 Years

KINGSTON, Ont., Sept. 12.—(CP)—Nicholas (Nick) Minille of Ottawa was sentenced today to three years for escaping Aug. 1947, from Kingston penitentiary.

### Hyderabad Invaded By Hindu Soldiers

NEW DELHI, Sept. 12.—(CP)—Indian troops invaded the princely state of Hyderabad from all four sides today. The declared purpose was to restore order.

The Dominion soldiers, spearheaded with tanks and armored cars and covered with air support, advanced swiftly, mostly against negligible opposition, a government statement indicated.

### Planes Here Join Search For Aircraft

One plane had already left RCAF Station Edmonton early today and another was being readied to take in the search for a Navy C-45 bomber, missing on a flight in Northern Manitoba since Sunday afternoon.

### TWO PARACHUTISTS

An RCAF Canso, carrying two men from RCAF parachute unit in Edmonton left early today. The two parachutists, who will jump to the site of the five men aboard the missing plane, if they are sighted, are LAC. Ken Clark and LAC. Bob Crute.

### GREEN EYES, PART RECIPE BRING TITLE

ASBURY PARK, N.J., Sept. 12.—(AP)—Mrs. Maria Strohman, 34, Philadelphia, won the title of America's most beautiful woman on the basis of beauty and homeliness attributes.

### Bermuda Hit By Hurricane

HAMILTON, Bermuda, Sept. 12.—(AP)—A howling Atlantic hurricane with between 120 and 140 miles an hour wind struck Bermuda today.

### Blind Hero, Frank Simpkin of Toronto receives a grateful hug from Shirley Lowrie. Simpkin rescued the girl from drowning in Lake Ontario on Thursday last. He was guided to her by her cries for aid.

Simpkin is credited with saving another person from the same fate some years ago before he lost his sight in an accident.

### A Good Day's Catch

TUNA, KING'S SIZE with its captor Col. Leslie E. Sadler of Chagford, Devon, England, was biggest catch of first day's competition in fifth annual international Tuna Cup match at Wedgeport, N.S. Col. Sadler fought the 746-pound "blue-fin" for one hour and 45 minutes. Besides British Empire teams were entered from Cuba, Argentina and the United States.

### Berlin Newspaper Bares Red Plot to Take Reins

By Richard Kassische  
BERLIN, Sept. 12.—(AP)—A Liberal Democratic newspaper here says "X-Day" for achieving Communist seizure of Berlin has been fixed for some time after the November presidential elections in the United States.

at Alex Taylor public school. Those few minutes of time off from books and problems are golden moments indeed to the kiddies.

## All-Time Attendance Mark Expected As Schools Open

### BLOODY WRECKED CAR PROBED BY POLICE

The ownership of a wrecked, overturned and blood-spattered car, abandoned at 118 avenue and 127 street Saturday night is being investigated today by police.

The auto was found overturned in a ditch, and very badly damaged. Blood has spattered the upholstery.

Preliminary weekend investigations by police showed that no accident victims have been admitted to local hospitals, and no accidents involving such an auto have been reported to police.

## Kerby Scholarship Winners Announced

Awards of Dr. Kerby Memorial Scholarships were announced at the semi-annual executive meeting of the Alberta Federation of Home and School Associations in Calgary Saturday.

Winners in the class A division (scholarship with two or fewer full-time teachers) were Joyce Marguerite Archer, Didsbury and Matilda Berg, Acton.

A South Edmonton girl, Beale Clark, won the award for the B class which includes schools with more than two full-time teachers.

G. F. Bruce, Edmonton, will be one of a group of delegates who will attend the national convention of the Canadian Federation of Home and School Associations in Winnipeg, October 4-7.

J. E. Simpson, Edmonton, radio-visual committee of the federation, announced that a series of 15-minute broadcasts about Home and School work have been provided for in schedules of CBC.

He also made it known that films suitable for Home and School locals are being made available through the Department of Extension of the University of Alberta.

## 3 Pay \$155 in Fines For Dangerous Driving

Three persons were fined a total of \$155 in police court today on charges of dangerous driving. One of them was also prohibited from driving for three months.

Hearstine fine was levied against Sidney A. McDonald, who was apprehended by police August 25 when they observed him driving his car erratically on 164 avenue, and travelling at a high rate of speed.

He was convicted on 164 avenue, and travelling at a high rate of speed. He was convicted on 164 avenue, and travelling at a high rate of speed.

10 Decees Of Divorce Granted

Ten decrees absolute of divorce were granted in supreme court today by Mr. Justice Hugh John Macdonald.

The decrees were granted to Mary Bahnik from George Bahnik; Dorothy I. Lyons from Arthur V. Lyons; Emily Kilburn from Roy C. Kilburn; Pearl Romanik from John B. Romanik; Marie I. Duncan from Robert A. Duncan; Lawrence McGray from Marjorie S. McGray; Mary Ellen Sloan from Leslie W. Sloan; Eva A. Pash from John Pash; Alice I. Eilers from Walter F. Eilers; and John C. Villard from Maud E. Villard.

Other Pictures Page 13.

All-time attendance record for Edmonton schools may be set this year.

Thousands of city youngsters trooped back to the books this morning after an extended holiday because of the poliomyelitis epidemic.

After roll calls are tallied today in Edmonton's 60 schools, new attendance records may be set.

School officials said this morning that about 20,000 children may attend classes in Edmonton this year.

Previous record was a little under 19,000 in the early war years.

R. S. Sheppard, superintendent of schools, said that about 16,000 will attend public schools.

There will be about 10,000 kids in elementary schools, 3,000 in intermediate, and 3,000 in high schools.

HIGH SCHOOLS OPEN

City high schools opened last Tuesday, but elementary and intermediate schools remained closed until today because of the poliomyelitis epidemic which has given Edmonton 60 poli victims and four deaths from the disease.

O. P. Olson, chairman of the separate school board, told The Bulletin that pre-registration demand has indicated an all-time record of 3,000 attendance in separate schools.

Attendance in city schools dropped during war years. High school attendance decreased by between 500 and 600.

Last year, when school openings began three weeks late, a mid-spring sickness epidemic occurred along with poli in that year.

There were 194 cases of poli in Alberta in 1941, compared with 220 this year.

However, school kids had wartime holidays, when school openings all over the province were delayed until almost October to allow youngsters to assist in harvesting operations.

NEW SCHOOLS

There will be no major curriculum changes to greet school children this year, but there will be some new schools.

Also new is Keith Russell, recently appointed assistant supervisor of schools for the Edmonton school board. Mr. Russell joined Norman Radisson, veteran music supervisor, in running the school board music curriculum.

Separate school board now has 19 city schools, with the addition of the new two room Jasper Hill elementary school.

The new room North Delta school opens in November.

Navy Parade

All officers and men of the Canadian Navy Reserve will parade at HMCS Naumach, 8 p.m. Monday.

## LIQUOR PROVIDES RICH POLICE HAUL

City police court netted \$200 in fines, \$120 in bail forfeitures and six bottles of confiscated liquor today as 14 persons were penalized for week-end celebrations.

Ten persons were charged with intoxication, seven of them pleading guilty to the offences and three failing to appear to face the charges.

Three bottles of wine, and five bottles of beer were seized when police arrested three persons for being in illegal possession of liquor. All pleaded guilty and each was fined \$20. One person who failed to appear on a similar charge forfeited bail of \$30.

## Rains Delay Harvest, May Cut Wheat Grade

Week-end rains will delay harvesting operations in the northern half of the province until the end of the week, it was announced today by J. E. Birdsall, supervisor of crop improvement for the Alberta government.

About one-half inch of rain in the Edmonton area, in a belt from Jasper to Vermilion, and about one-tenth of an inch in the Peace River area, will delay harvesting.

No rain has been reported further south than Penhold.

NOT SERIOUS YET

The situation is not serious as the rain ceases soon. Season is not yet considered "late," and there is still time for harvesting to be continued before the first frost season begins.

There will be some weathering due to this week-end's rain. Wheat will be bleached some, and barley discolored.

Weathering effect may cause some lowering of grades of wheat. Between 50 and 60 per cent of crops have been cut, and 30 to 35 per cent threshed or combined so far, said Mr. Birdsall.

## IT ISN'T COMPULSORY ...but Wise Men are doing it!

In our way of life a man is allowed to manage his own affairs. He can choose his own job and live where it suits him. He can spend his earnings in any way he pleases. He can set aside as much of his income as prudence dictates to safeguard the future of his loved ones through life insurance and at the same time provide for his own declining years.

That is why life insurance is so vital to the economic needs of our people. It is so adaptable it can be planned to the exact requirements of individuals and families under the most widely varying circumstances.

Why take the future of your loved ones for granted? Wise men seek expert advice. How recently have you reviewed your own life insurance needs? We suggest you talk it over with a representative of the Manufacturers Life Company.

# National Development Council'

There is obvious merit in the suggestion of John G. Diefenbaker MP that Canada should set up a "National Development Council" to promote the development of this country's natural resources.

The proposal is particularly laudable at a moment when such a sharp distinction is being drawn between private and public enterprise. And an impressively large body of public opinion will agree with Mr. Diefenbaker that the government development of natural resources can easily and insidiously transform itself into some form of public ownership.

It seems to be obvious, then, that an economic system based on private enterprise requires some non-government agency to assist the government in putting the tremendous natural wealth of this country into practical and profitable use.

It is true that in minerals alone the

record of Canadian production is an imposing document.

The statistics of this country show that large quantities of cobalt, copper, gold, lead, nickel, platinum, silver, zinc, coal, gas, petroleum, asbestos, gypsum, quartz, salt, sulphur, cement, etc., are dug out of the ground every year.

But clearly these production figures belie the notion of the country as an immense potential production. In short, only an infinitesimal fraction of Canada's natural wealth is being put to use.

It is presumed that the proposal for a "National Development Council" contemplates an organization along the lines of the National Research Council.

The one would supplement and augment the work of the other.

Indeed, research and development are inseparable.

If the National Research Council has proved its value in Canada, as it undoubtedly has, the case for a National Development Council is already established.

## Weak Liquor, Strong Prices

The Canadian Association of Provincial Liquor Commissioners has explained why it is necessary to keep liquor weak. They have neglected to explain why it is necessary to keep prices strong.

Hard liquor will have to remain at 30 underproof, they say, because during the war the spirit was produced in quantities used almost entirely for war purposes. Therefore, it will be impossible to return for some time to the normal 25 underproof product.

That explanation appears to be conclusive and satisfactory. But it is strange that a product depreciated in quality through necessity should command the same price or higher prices than the normal quality.

Milk, for instance, is valued according to its butterfat content. Why, then,

should whisky not be valued according to its alcoholic content?

While the reduction of the public's alcoholic consumption is a desirable thing, the strength of hard liquors bears little or no relation to temperance. The drinker will imbibe until he secures the desired effect, whether it be produced with a half bottle or with two.

Thus, the relation of price to alcoholic content is a matter of almost exclusively economic concern.

So long as people are going to buy whisky, it is reasonable that they should get their money's worth.

Just why a diluted product should be sold for the same price or higher prices than the normal product is something the Canadian Association of Provincial Liquor Commissioners should carefully explain.

## Military Service As a Career

In calling for an unlimited number of recruits for Canada's armed services, the department of national defence offers for the serious consideration of every young Canadian the profession of arms as a career.

Fifty years ago such an appeal would have been answered, in peacetime, mostly by those who were temperamentally unemployable.

In those days it was traditional that regular armies were recruited among tramps, men whose custom and personal habits made them unacceptable to private employers.

It should be carefully noted that the armed services has radically changed. The armed services are no longer sanctuaries for ne'er-do-wells. They are now the last refuge of those who could not make a living otherwise.

The profession of arms today is a highly specialized profession that requires

intelligence, diligence and application to an even higher degree than that demanded in private industry.

The young man who enlists in 1948 leads no life of idleness and debauchery. On the contrary he secures a technical education and useful and productive purposes.

Life in the armed services is no longer a life devoted to preparation for war. It is a life devoted to the maintenance of peace.

The profession of arms today is an honorable and difficult calling that offers a worthwhile challenge to the keenest young minds in the country.

Young Canadians should do well to consider the armed services as a career. For the preservation of peace through national security is one of the most important purposes to which young men can direct their energies and talents.

## Brookly Thompson

### Soviet Policy Shows No Moderating Signs In Fight For Berlin

Whether or not there is any common ground between the policy of the Soviet Union and the death of Zhukov, the idea that his passing might herald a change toward greater moderation must be abandoned. Every sign is of intensification of the Soviet struggle and every sign is of intensification of the Soviet struggle.

Brookly Thompson, secretary general of the Communist party, was absent for weeks from party councils and his sudden return seemed to indicate a trend toward moderation. It was known generally to consider the Soviet premier power, to this date when they are the world's strongest power. In an answer to official protests, Russian Major General Gerasimov said that the Soviet policy that we had been hearing of was not a change of policy.

We put up not the vestige of a fight and the arrested men were carried off, tied to their state in a truck, under a spotlight. The Soviet Union is now concentrating in Hungary and Czechoslovakia and the great war of Fascism for the next decade will become inevitable as the price of appeasement now.

The Russians are backing their policy with force. Despite the fact that Yugoslavia, military supplies are flowing in from the left. The Soviet Union is now concentrating in Hungary and Czechoslovakia and the great war of Fascism for the next decade will become inevitable as the price of appeasement now.

In the entire history of the world, the time when they are the world's strongest power, to this date when they are the world's strongest power. In an answer to official protests, Russian Major General Gerasimov said that the Soviet policy that we had been hearing of was not a change of policy.

While people in the United States are asking whether the international Communist party is an instrument of the Soviet state, Brookly Thompson has been forced publicly to state that it is, and that Germany, Italy, and the United States are the greatest heresy. The theme that dominated the party's propaganda is that the Soviet Union is the only power in the world. On call, all parties must fall to it. In the Soviet Union, the party is the only power in the world. On call, all parties must fall to it. In the Soviet Union, the party is the only power in the world. On call, all parties must fall to it.

the blockade, after they have won domination of the city by mass action, and consent for the use of their currency, in the Moscow talks.

Decisive Encounter

Make no mistake about it. The battle of Berlin will be one of the decisive encounters of the century. Every show of weakness leads to a stronger show of force. The stronger side regardless of the Soviet Union's policy, the next decade will become inevitable as the price of appeasement now.

The Russians are backing their policy with force. Despite the fact that Yugoslavia, military supplies are flowing in from the left. The Soviet Union is now concentrating in Hungary and Czechoslovakia and the great war of Fascism for the next decade will become inevitable as the price of appeasement now.

Is There Bliss In Ignorance?

Some night when you have a few friends in and the conversation begins to sag, try introducing the subject: "Is ignorance bliss?" I don't know if you've heard that topic but it's a gathering of people who are supposed to be "How about another drink?"

Get into the debate the other night at our house when a young engaged couple were among the visitors. They were married in a small, mortgage-covered cottage.

Brown Eyes and I, who are always talking about running off to Madagascar or steering a link up the Yangtze, suggested that we had to do it all over again we wouldn't settle down in the lot that way.

We had a wandering freighter or bicyclist through the Low Countries or high-bikes around the world. We'd use those first years to discover what makes the world go around and to expose ourselves to the good and the evil of all kinds of people and cultures.

The younger man looked at us with amused tolerance. He suggested that we should start with the fun and struggle of starting a marriage and a career.

As for him, he said the joy ahead was in the politics and the career. He was simply glad, as he said, that the joy ahead was in the politics and the career.

He said that the joy ahead was in the politics and the career. He was simply glad, as he said, that the joy ahead was in the politics and the career.

He said that the joy ahead was in the politics and the career. He was simply glad, as he said, that the joy ahead was in the politics and the career.

## LETTERS TO THE EDITOR

UNDER THE CIRCUMSTANCES MR. MILQUETOAST DOESN'T CARE TO ACKNOWLEDGE OWNERSHIP

Defends Wallace

Editor, Bulletin.—Your editorial on "Martyrdom for Henry Wallace" does not flatter you as an editor of allegedly progressive newspaper of a great community. In the first place a few tomatoes or eggs directed by hysterical hoodlums against Henry Wallace or anybody else do not make a martyr of anybody.

Neither are those thousands of oppressed minorities whose cause Mr. Wallace is championing in a courageous manner of necessity "half baked sentimentalities."

Two thousand years ago a carpenter walked the shores of Galilee and was considered by the powers that be a half baked sentimental. He was not very popular at the time, because he preached peace and love.

Many times in past years it has been impossible to climb the hill on the south end of the bridge on the slippery condition of the road and snow would ruin it so that he can sit in his control tower and capably direct his own exit.

Trams and buses, if and when they travel this route at low speed, will be a nuisance to the city. It would be a nuisance to the city. It would be a nuisance to the city. It would be a nuisance to the city.

It would be a nuisance to the city. It would be a nuisance to the city. It would be a nuisance to the city. It would be a nuisance to the city.

It would be a nuisance to the city. It would be a nuisance to the city. It would be a nuisance to the city. It would be a nuisance to the city.

It would be a nuisance to the city. It would be a nuisance to the city. It would be a nuisance to the city. It would be a nuisance to the city.

It would be a nuisance to the city. It would be a nuisance to the city. It would be a nuisance to the city. It would be a nuisance to the city.

It would be a nuisance to the city. It would be a nuisance to the city. It would be a nuisance to the city. It would be a nuisance to the city.

It would be a nuisance to the city. It would be a nuisance to the city. It would be a nuisance to the city. It would be a nuisance to the city.

# \$5 Million Fires Deplete Forests

## Autumn Hazards Mounting As Woods Become Dried Out

WINNIPEG, Sept. 13.—(CP)—Across Canada the last days of summer are making millions of acres of forest tinder-dry—easy victims for forest fires which again this year will eat into Canada's vast woodland resources. The bill will come to something more than \$5,000,000.

Manitoba alone—a province with one of the lesser forest fire problems—will have lost between \$100,000 and \$150,000 before snowfall. In an average year rangers combat 128 fires in Manitoba. Across the country, the figure is 5,315. And the area burned out in Canada in a year is 5,500,000 acres.

**MANITOBA LUCKY**  
To date this year, Manitoba considers itself lucky. The chief forest fires, which so far number more than 200, have occurred in mainly "unaccessible" areas. Long in time destroyed are below normal although acreage burned is above average.

However, forestry officials warn a bad fall season could occur now that the leaves have started to fall and forests are dry.

The biggest menace to the forest is the careless smoker. He causes 23 per cent of all fires. Lightning is next at 30 per cent and campfires account for 15 per cent.

**OTHER CAUSES**  
Smaller percentages of fires are caused by settlers, by persons who set bonfires for mischief or malice, by sparks from locomotives, industrial operations and public works.

The mines and resources department, administrators of Canada's forests warn:

"Be careful with fire. Burnt forests build no homes. Prevent forest waste."

The average man needs about 10 grams of protein in his day's food.

## DEER IS BAFFLED AS ANTLERS HELD

JARRETOWN, Pa., Sept. 13.—(AP)—A 22-year-old woman charged by a buck deer on a lonely road subdued the animal by grasping its antlers and hanging on for nearly half an hour until her screams were heard.

Theresa Rowe, switchboard operator at the Huntington Valley (Pa.) Country Club, stood alone Saturday at a bus stop when she saw a large deer approaching. The animal lowered its head and charged.

After a buffeting which left her covered with cuts and bruises, she grasped the deer's antlers.

Joseph Weller, a farmhand, heard Miss Rowe's screams and with his employer, Russell Megargee, ran to her side. The deer bounded away.

## Yugo-Slav Spies Are Executed

LONDON, Sept. 13.—(Reuters)—Thirty-three members of the Usta-shi, Croat terrorist organization, sentenced to death at Zagreb Aug. 27, were executed there yesterday.

Belgrade radio reported last night: Twenty were hanged and 23 shot in accordance with the sentences passed.

All had been convicted of spying against Yugoslavia.

## World Peacemaker... Today and Tomorrow

As one of the world's greatest food producers, the Canadian farmer faces a huge and vital task.

In the years ahead he must supply not only the growing demands of our own nation, but he must also serve the cause of peace by producing more and more food for the hungry millions overseas.

To help the farmer in his task, part of every life insurance dollar is invested in government and industrial bonds which in turn help to provide new roads, electrical power, machinery and other aids to modern farming.

So, as a policyholder, when you invest in security for your family... you help promote Canada's progress... and, indirectly, you help lay the foundations for world peace!

**Passport Accord**  
HONG KONG, Sept. 13.—(AP)—British and Portuguese residents of Hong Kong and Macao may travel between the two colonies without visa formalities, effective today. While the agreement does not apply to other nationalities, Chinese from Macao always have been allowed to visit Hong Kong without travel documents, and will continue to do so.

## Brunette Wins Beauty Title

ATLANTIC CITY, N.J., Sept. 13.—(CP)—Beatrice (Bebe) Shopp, a baby-faced, grass-roots, Minnesota girl, took the Miss America beauty title Saturday night after a week of competition with 34 other girls, including one from Canada.

Miss Shopp, an 18-year-old brunette, who "loves to clean fish," awoke today after three hours' sleep to find herself \$10,000 richer than when she left her four-acre home.

These are the plums that fell at her feet: A \$5,000 scholarship, a \$5,000 automobile and \$5,000 in contracts for personal appearances to help set a number of commercial products.

Miss Canada, 20-year-old Jean Ferguson of Halifax, failed to place among the 15 finalists who took part in Saturday night's final events. She won the Dominion beauty title two weeks ago in Hamilton, Ont.

In 1947 Canada's beauty queen, Margaret Marshall, of Toronto, placed third among the 34 competitors.

Thesea Rowe, switchboard operator at the Huntington Valley (Pa.) Country Club, stood alone Saturday at a bus stop when she saw a large deer approaching. The animal lowered its head and charged.

After a buffeting which left her covered with cuts and bruises, she grasped the deer's antlers.

Joseph Weller, a farmhand, heard Miss Rowe's screams and with his employer, Russell Megargee, ran to her side. The deer bounded away.

# Montreal Ousts Leafs From IL

NEW YORK, Sept. 13.—(CP)—The pennant-winning Montreal Royals knocked Toronto Maple Leafs out of the International League playoffs Sunday by beating the Leafs 7-5 in the second game of a doubleheader. The Leafs won the opener 9-4.

The defeat enabled Rochester Red Wings, beaten 6-3 by Buffalo, to clinch fourth place, the circuit's last playoff spot. The Wings finished the season with 78 wins and 75 defeats for a .510 percentage. Toronto won 78 games and lost 76 for a .506 mark.

Manager Jewel Egan's Syracuse Chiefs nailed down third place by splitting a doubleheader with the runner-up Newark Bears. The Chiefs won the first game 4-3, but lost the second 4-1.

The playoffs are scheduled to understart Tuesday night with Rochester at Montreal and Syracuse at Newark. Both series are best-of-seven affairs. The two winners will then meet in another best-of-seven series to determine the circuit's entry in the junior world series against the American Association's playoff winner.

Montreal led the league virtually throughout the season this year. There was no repetition of last year's sensational finish when the Royals, after being far ahead of the pack, lost first place to Jersey City on the final day of play.

## How They Stand

### NATIONAL LEAGUE

Montreal	78-58	.571
Pittsburgh	72-58	.554
St. Louis	71-59	.545

## A Tornado Sweeps Through EAC Line

THE SHIFTS IS ON as Dale Evans, Calgary, Tornado halfback, awakes around right end in the third quarter.

## Bud Ward Cops Open with Neat 19-Under-Par

COUP D'ETAT. Idaho, Sept. 12.—(AP)—Marvin (Bud) Ward, former U.S. amateur champion, won the \$2,500 Coeur d'Alene open golf tournament Sunday with a brilliant 18-hole total of 191, 19 strokes under par.

Ward, who led by five strokes at the end of the first 36 holes Saturday, fired a five-under yesterday 65 on the final 18 holes yesterday to finish five strokes ahead of E. J. (Dutch) Harrison of Little Rock, Ark., who also had a 65 Sunday. His 196 was 14 under par.

As an amateur, Ward took home only merchandise in prizes while Harrison won \$500 for second place. Jim (Mac) Pendergast, who had a 65 Sunday, finished with a 162-68—200, good \$10.

Ted Neel of Walla Walla, Wash., who had a 67 for Saturday, came in with an identical score yesterday for a fifth place total of 201. He won \$200 for his efforts.

The only other amateurs to finish among the first 20 were 19-year-old Al Menegat of Spokane, later U.S. junior champion who had 204, and Jeff McElroy of Nanaimo, with 207. McElroy finished in a 184 on the second place in the recent Alberta open on Aug. 4.

Thomas, who first started booting the ball around in Ayshire, Scotland, came to Canada and Alberta during the war under the British Empire Air Training scheme. He soon cottoned to our way of living and on discharge decided to stick around for a better look.

Now Westminister has a entry in the classy coast league.

# Henry V. Martell Beats 100 Hands for Open Title

By Jim McCurdy

Henry Martell returned to the scene of his first tournament victory Sunday to re-establish himself as top golfer in the city. Martell's one-stroke margin over Highlands club-member Bud Ward, 135 to 139 at Municipal gave him the City Open title, an honor he won on the same course in 1934 when he was starting out in the golfing world.

More than 100 entries were received for the Sunday test. Buddy Loftus, Alberta Open title, was third with cards of 88 and 71 for 159 total. Pete Olynk, professional at Mayfair and defending champion was next in line with 163 and second place in the moneyed ranks. Olynk was tied for 32nd with an opening round 65 but blew to a 76 in the afternoon as his putter went cold.

Overcast weather undoubtedly kept attendance down but several players were in the clubhouse, mainly following the trial of Olynk, Loftus and Bob Carter and Martell, Ted Neel and Tommy Vickers.

The course was in generally excellent condition. Martelli's victory was never certain. In fact, he needed a birdie two on the 17th and eagle three on the 18th holes of the morning round to take his one-stroke lead to lunch. A 20-foot putt gave him the eagle.

Nichols played steady through both his rounds to pick up second honors. He missed par but once while firing six birdies in all, tied and held this summer, Vern de la Cruz, who was in his previous form.

## Tornadoes Whip EAC 11-0 In Inter-City Grid Tilt

By Dick Beddoes

Calgary's West End Tornadoes swept over EAC by 11-0 at Clarke Stadium Sunday afternoon. Some 1,100 spectators witnessed the southerners take advantage of every opening to white-wash the "Clubs" in the first inter-city junior football game of the season.

The old, old story can be written again. The breaks of the game decided it.

DISTRICT NEWS IN BRIEF

# New High School At Stony Plain

STONY PLAIN, Sept. 13.—Work was started last week on the new divisional high school building here, by Floyd Olson Construction. Basement has already been excavated and cement work has now been well started.

It is expected that the new building will be completed about February. Building will be of frame-stucco construction and will have seven rooms beside a lunch room in the basement which will also house the heating facilities.

Height will only be one storey, with plans for additional rooms if necessary. Dimensions are 106 by 62 feet wide.

This new addition to the Stony Plain Division will serve pupils from 156 street, Edmonton to East, south on the west and from township 23 and 24 on the north to the Saskatchewan river on the south. There are approximately 2,500 square miles in the Stony Plain school division with a population of 13,000.

## Late School Start Has Advantages

PERIVALE, Sept. 13.—Delay in postponement of school opening for two weeks is being put to good use, as families are picking up their children—being told that school is available this season.

The cafe business, until July, carried on by Mr. and Mrs. Price, is now in operation under new management, Mrs. P. Ward being the proprietor.

## Frost Damage To Crop Varies

HIGH PRAIRIE, Sept. 13.—Threshing is under way and Henry Ledig reports his barley yields as 40 to 45 bushels on summer fallow and 20 bushels on spring plowing. Wheat cut two weeks before the frost, the outside sheaves showed signs of frost, but the inside of the stalks were OK, reports Carson Chenier, who is threshing on the Joe Redlak farm south-west of town.

He says the weight of the wheat is good and he figures the yield will be about 30 bushels. Not so optimistic is the report from farmers with late grain caught by the heavy frost in August. Some have found their grain not worth cutting and some say their cut grain is not worth threshing. With the continuance of bright, windy weather, threshing will now be general.

## WATER PROJECT WORK ADVANCES

HANNA, Sept. 13.—Contractor C. E. Lamb has a crew working on the new water project. Builders are at work on a dam site while at another point a dragline is cutting a ditch to divert water from Bullpound Creek into the proposed water reservoir.

## Board Considers New Rink Site

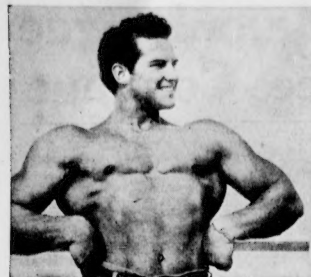

HIGH PRAIRIE, Sept. 13.—High Prairie Board of Trade met on Tuesday, Sept. 7 and discussed a number of subjects of interest to the district. A skating rink at the new school was deemed to be too far out of town and a suggestion that it be placed on the back of the old school ground was received. The matter will have to be presented to the school board of District No. 48.

Dr. J. B. T. Wood, M.L.A., was present and assured the members of the Board of Trade that he will gladly co-operate with them for the betterment of the district, in his new capacity as member of the Legislature for Groulx.

No word has been received from either the provincial or Dominion governments re the flood situation here, and Dr. Wood will review the matter with proper authorities.

## School at Rocky Is Over-Crowded

ROCKY MOUNTAIN HOUSE, Sept. 13.—The town school is badly overcrowded, and no beginners who were not six by Sept. 1 will be accepted. There are nine teachers, and a 10th room would be opened if the board could find a place to put it. But so far, they have not found a vacant room. Principal is G. A. Taylor, and assistant principal, Miss Marie Verch, Andrew, Alta. On the public school staff are Miss Mavis Gainer, half; Miss Jean Fleishman, 10; Mrs. R. Belker, Mrs. S. Fleming, Mrs. C. V. Fay, Mrs. M. Leach, H. Morris, Rocky.

MEET "MR. WORLD", otherwise known as Steve Reeves, shown as he returned to the U.S. aboard the liner America. He won title of "most perfect man" in France.

## RED DEER BUILDING PERMITS \$600,000

RED DEER, Sept. 13.—Construction of homes, business places and additions and improvements to property in Red Deer runs close to \$600,000 up to the end of August, according to figures compiled in the city office.

Permits issued in August totalled \$133,750. Largest single permit was one for \$11,000 to Prof. E. R. Taylor, of Canadian Nazarene College, for a dwelling and garage. Twenty-two permits were granted for new homes, ranging in price from \$3,000 to \$7,000. Balance of the list was made up of additions, improvements and private garages.

The fine open fall weather is a boon to the builders and construction is going ahead in all parts of the city.

## New Doctor Joins Westlock Clinic

WESTLOCK, Sept. 13.—Arrival of another doctor, Dr. Leo Giroux, formerly of Dawson, has been announced by the Westlock at the Westlock clinic this week was announced by Dr. C. Whistler. He will replace Dr. Giberson. The latter had come when Dr. Woodman left for a special summer course in the United States.

Dr. Giroux, who with his wife and one child will take up residence in the log cabin house near the Whistler residence on Main street, will be a permanent member of the clinic. He has been in practice in Dawson for several years.

Another addition to the clinic staff is Miss Jean Mastry, of Edmonton, X-ray and laboratory technician, who began her duties Sept. 1. She is a graduate of the University of Alberta.

## Fire Damages Killam Church

KILLAM, Sept. 13.—Fire caused by an overheated register broke out in St. George's Anglican church recently. Fortunately C. S. Felgate returned to the building shortly after lighting the furnace, and was able to put in the alarm. The Killam fire department acted promptly in extinguishing the blaze.

Most of the damage was caused by smoke, requiring a completely new decorating job to be done.

## Institute Branch Formed at Melvin

EDMONTON, Sept. 13.—A new Women's Institute branch has been formed at Melvin, with Mrs. C. Leeson as president and Mrs. Roy Shantz as secretary. First vice-president is Mrs. George Young, and second vice-president Mrs. W. Summers. Directors are Mrs. R. Fisher, Mrs. Ross Young and Mrs. W. Summers.

Meetings will be held the second Wednesday in each month.

## Judge Suspends Sentence on Two

DAWSON CREEK, B.C., Sept. 13.—Three men, charged with the robbery of the Alaska Lunch, on March 25, 1948, appeared before Judge E. Woodburn at Pouce Couc last week. D. Coon and R. Miller pleaded guilty and were placed on suspended sentences. They were placed on their own recognizance to keep peace for two years. D. Taylor, who pleaded not guilty was given six months in jail.

lam fire department acted promptly in extinguishing the blaze.

Most of the damage was caused by smoke, requiring a completely new decorating job to be done.

## Greek Family Finds Haven in Edmonton

BREATHING THE AIR of Canadian freedom is a wonderful experience to Cosmas Anasit, left, recently arrived in Edmonton with his family from troubled Greece. Here he tells brother Jim Anasit of South Edmonton how it feels to live in a country that is really free.

SAMPLING A COKE is something new for Steve Anasit, 16-year-old refugee from strife-torn Greece. Young Steve starts to school here today.

## Freedom in Canada Even More Wonderful Than Food

By JACK DELONG  
Canada's abundance of food is "wonderful" for the malnourished and hungry of Greece but Canadian "freedom is even more wonderful."

That's the way Cosmas Anasit, his wife and three children left from their arrival here from Eastern Thrace. They have been three years trying to reach Canada from their tragic, civil war-torn native land. Guerrillas made it unsafe to travel.

Now safe in Edmonton, the Anasit family is settling temporarily with the Edmonton Anasits, Jim, Mitchell and Steve, brothers of Cosmas.

APART 35 YEARS  
The Edmonton Anasits are veteran residents of the South Side and operate the California Fruit

and Confectionery store at 82 Avenue and 106 Street.  
The arrival of Cosmas Anasit marked the first reunion with the overseas brother in 35 years.  
Asked about conditions in Greece when the family left there some weeks ago, Cosmas told The Bulletin:  
"The people of Greece are near starvation in many sections of the country. We had to live on bread made from ground corn cobs."  
"Most of the trouble is caused by the Greek hands from Bulgaria riding Eastern Thrace. They are Communists and they burn whole villages, kidnap hostages and shoot many people," he added.  
Now in Edmonton with Cosmas Anasit is his wife, two daughters, Chryse, 25, and Anna, 20, and one son, Steve, 16.  
Two other sons are still in Greece.

"They are Christians, 15, and Anastas, 27. The latter is serving in the Greek regular army. It is hoped that these two will soon be able to come to Canada.  
In addition to the harrowing guerrilla warfare of the past two years the Anasits experienced all the horrors of the Nazi occupation during the Second World War.  
"We were forced to work for the Germans without pay and if anyone dared from ground corn cobs."  
"Most of the trouble is caused by the Greek hands from Bulgaria riding Eastern Thrace. They are Communists and they burn whole villages, kidnap hostages and shoot many people," he added.  
Now in Edmonton with Cosmas Anasit is his wife, two daughters, Chryse, 25, and Anna, 20, and one son, Steve, 16.  
Two other sons are still in Greece.

## GLOW IN OIL FIELD NOT FIRE OUTBREAK

Flames seen in the Leduc oilfield by Edmontonians Sunday night were the result of tests at Imperial Leduc No. 90, not a new outbreak at Atlantic No. 3.

The new Imperial well was being given an eight-hour flush flow test to determine its potential. Gas being burned on a flare line while the test was in progress reddened the sky over the field after sunset, causing many Edmontonians to wonder if the wild well was uncontrolled again.

It was pointed out by oilmen that the recent increase in the production quotas for the field has added considerably to the amount of waste gas being burned at well heads. As the days shorten the glow from these fires becomes noticeable earlier and more people notice it than was the case in summer time.

## August Weather Sets Thunderstorm Record

Edmonton's weather for August presented residents of the month with a record number of thunderstorms during the month.

A monthly meteorological report issued today by the Dominion Public Weather Office in Edmonton revealed that thunderstorm activity took place on 11 days in the month, as compared to a normal of four.

Despite this fact, rainfall for the month was only 1.5 inches. The normal is 2.41 inches.

The lowest station pressure ever recorded at the Edmonton office was also logged on August 23 when the barometer sank to 30.14 millibars.

Normal for the month totalled 247 hours. Normal for the month is 213, but this year's sunlight, although below normal, was far above the 1947 record low of 164 hours.

## NOTES THAT MAY AID YOU

### Son Starting School? Parents, Be Careful!

Watch your step. Mom and Dad, if Junior is starting school this year, here are some friendly tips on how you should behave, from Dr. S. Harcourt Pennington, acting head of the New York Bureau of Education.  
"Every child is a little fearful about going to school for the first time—even those who pretend not to be. The cure is for parents to take the child to school as a pleasant place and that going there is natural and part of the child's growing up."  
"Please, never use the school as a threat."  
"It is a member that education means more than book knowledge. At that, the child's learning to get along with his playmates is more important than learning his ABC's because this sets the pattern of how he gets along with other people and what kind of a citizen he makes. So don't worry too much if Johnny

## Change In Home's Name Proposed

"Optimists' Home House" will be the new name for the South Side boys' detention home if a recommendation by the city commissioners is accepted by city council.

Recently the Optimist Club suggested the change in name, and commissioners have now received acceptance of the change in name from provincial authorities, joint operators of the home with the city.

The Optimist Club has been providing recreation for inmates of the home and contemplate extending these activities.

Boxing and wrestling shows have been staged and it is proposed to provide facilities for shop work at the home this winter.

The commissioners recommend the change in name provided the club gives a guarantee of permanent activity.

## Auxiliary Meets

Wesley Evening Auxiliary will hold its September meeting Tuesday evening, September 14, at 8:00 p.m. at the home of Mrs. Harry Spelman, 10213 123 street.

## Rossdale League Meets Tuesday

Rossdale Community League will hold its first monthly meeting Tuesday, Sept. 14, at 8:00, in the Prince of Wales Armories, with the development of all interested community members are requested to attend.

## 167 Entries Received For Fall Dog Show

Edmonton's annual fall dog show opened at 10:00 a.m. today in the Prince of Wales Armories, with the development of all interested community members are requested to attend.

Judging today's show will be Walter Pyatt of Regina. Arthur Wright of Vancouver will judge the separate show to be held Tuesday. Final winners will be decided on combined points from the two-day event.  
Among the entries, including several winners of international honors, sporting dogs are most heavily represented; but there will also be working dogs, terriers and non-sporting dogs.  
Judging will be from 10:00 a.m. to 10:00 p.m. daily and on both days a parade of champions will be held.  
Proceeds of the show will go to provide comforts for hospitalized

## \$25,000 Fire In Dairy Here

### North Alberta Dairy Pool Suffers Damage

Fire resulting in an estimated \$25,000 damage gutted the storeroom and caused extensive water and smoke damage to the Northern Alberta Dairy Pool offices at 105 avenue and 102 street, early Sunday morning.

Only prompt action by the city fire department saved the two-story brick milk handling and powdering plant, situated in the centre of Edmonton's wholesale district, from even greater than the estimated \$25,000 damage.

Quick isolation of the flames in the storeroom on the second floor in the northeast corner of the building prevented fire damage to the filing and business offices adjoining.

City Fire Marshal Russell Booth is investigating the cause of the blaze which appears to have started in the storeroom where butter and bottle tops milk powder and other supplies are kept.

Milk bottling operations on the floor below the storeroom went on as usual Sunday. No damage was evident to the ground floor.

DISCOVERED BY STAFF  
The fire was discovered by the engineer and night watchman who turned in the alarm at 12:19 Sunday.

Another fire at Joan's Coffee Bar, 1044 Jasper avenue which ignited from a pan of grease on a stove was extinguished, over five weeks by the local fire department.

Two other fires were extinguished over the weekend. One was the home of Mrs. H. Reeves, 1913 122 Avenue south, which started from a radiant in the living room and the other at the home of Mrs. H. Deacon, 10629 132 street, which started in a bedroom closet.

Damage in both instances was light.

## Sea Cadet Parade

Sea Cadets will parade Sunday, September 14, at 7:30 p.m. Rig of the day: White caps, and white flannels.

A limited number of new recruits will be accepted.

## Thieves Foiled in Two Robbery Tries Here

Thieves were foiled in two attempts to steal from Edmonton premises they entered during the week-end.

At the home of Mrs. H. Deacon, 10629 132 street, which started in a bedroom closet. Damage in both instances was light.

At the home of Mrs. H. Deacon, 10629 132 street, which started in a bedroom closet. Damage in both instances was light.

At the home of Mrs. H. Deacon, 10629 132 street, which started in a bedroom closet. Damage in both instances was light.

## City Council Will Officially Support Air Route Demand

City council will officially support the Edmonton Chamber of Commerce's campaign for the establishment of direct service over Trans-Canada Air Lines from this city to Vancouver.

Aldermen will be asked at tonight's council meeting to endorse a resolution in support of the Chamber's campaign.

The resolution will be sponsored by Mayor Harry Hainley, and its passage is recommended by the city commissioners.

HOURLONG BATTLE against flames at the Alberta Dairy Pool in the early hours of Sunday resulted in a victory for Edmonton firemen who quelled the blaze. In spite of prompt action by the fire department, damage estimated at \$25,000 was done in less than one hour.

## Garbage Dumps Due To Get 'Face-Lifting'

Edmonton's garbage dumps are due for a "face lifting." And city commissioners are proposing they be empowered to work out a plan under which refuse, other than garbage, be removed at cost.

It will report to city council there has been a great increase in the cost of garbage collection, and an increasing demand from householders for the removal of large quantities of refuse other than garbage.

The city has co-operated in removal of such refuse during spring clean-up period, but has not assumed this responsibility during the rest of the year.

## Worker Injured

Edwin Lewis, Spence Grove, was admitted to St. Albert's hospital early Sunday morning suffering from injuries incurred in an accident at the shaft oil wells. Extent of his injuries is not known.

## Yukon Transport Probe Under Way

Federal Officials to Study Complaints About Shortages

Complaints about transportation rates and services in the Yukon interior will be probed Tuesday at a joint sitting of the Board of Transport Commissioners and Air Transport Board.

Members of the joint inquiry board are in Edmonton today. They will leave tonight by C.P. Airline for Dawson City where the sittings will begin Tuesday. It is expected the board will sit about three days. Going north for the hearings are: Hugh Wardepe, assistant chief commissioner for the Board of Transport Commissioners; Air Vice-Marshal Alan Perry, commissioner Air Transport Board; W. J. Matheson, counsel for the Department of Transport; H. W. Little, assistant director of traffic; Board of Transport Commissioners; and W. G. Scott, economist, Bureau of Transport and Commerce, all of Ottawa.

Complaints to be investigated were made to the Dominion Department of Transport by Dawson City Board of Trade and the I.C.-Yukon Chamber of Mines.

These bodies have urged the joint commission to inquire into the surface and air transport services to interior Yukon centres such as Dawson City and Mayo.

**RATIONING POSSIBLE**  
It is contended that gas, oil and food stocks are being critically touched with winter coming on. Rationing is being hinted at by the complaining agencies.

Both service and the rates need to be revised, the Yukoners contend.

The joint board will have representatives of all parties concerned. It is hoped the White Pass and Yukon Railroad will have representatives at the meeting, the committee members said here today.

Members of the committee, may see recommendations. It may see fit to make, will be forwarded to Hon. Lloyd Chevrier, federal minister of transport.

**THEY SURE MAKE** these problems tough in Grade Six is the apparent reaction of Billy Townsend, 12-year-old pupil at Alex Taylor school, but Billy will soon be right on the learning beam. First day is always pretty grim.

**WHAT'S SO FUNNY** about starting back to school seems to be what pretty Margot Laidlaw, 10, is saying as she ponders this business of studying lessons. Perhaps concentration is responsible for the somewhat grim look.

## Blast Will Destroy South Pacific Village

ATTAPE, New Guinea, Sept. 13.—(CP)—This south Pacific village will be blown off the face of the earth early next year in one of the greatest man-made explosions in history.

More than 3,000 tons of bombs, a dump built by war against the Japanese in the Second World War, will be detonated at Attape, a coastal plantation on Attape's outskirts.

Australian and British scientists, working in conjunction with the Royal Australian Air Force and the Australian army, will create the explosion to learn more about earthquakes and to study the geological structure of the terrain for oil that is known to be present in this area.

All activities within a radius of six miles from Attape will be moved before the bombs are detonated. Geophysicists believe that the crust of the earth is thinner at New Guinea and adjacent islands than it is in other parts of the world. They hope to establish with the use of seismographs this belief as a fact.

Oil geologists have used the explosion method for years in their search for oil but they have used only small charges of from 10 to 20 pounds.

Apart from atom-bomb explosions, the greatest man-made explosion in recorded history was the Royal

## Campbell Inspects Air Force Housing

Constructing of housing units for air force personnel who will be stationed at Nama airport will be commenced sometime this fall.

This was stated here Saturday by Lt. Col. Hal Campbell, assistant minister of national defence, who was in Edmonton to confer with Western Army Command and North West Air Command officers on housing plans.

Col. Campbell viewed the housing program now under construction in the command area of Edmonton.

He said the delay in starting the Nama project was due to certain shortages of materials, especially those necessary for the supplying of utilities.

Late Friday afternoon Col. Campbell, accompanied by Lt. Col. George Weir, senior officer at Western Command headquarters, left by plane for Calgary. There the two officers were to view progress of the housing program at Currie barracks.

## Travellers Again To Sponsor Shows

Search for talent shows will be sponsored by Edmonton branch of the Associated Canadian Travellers, this winter.

Based on similar shows held throughout Northern Alberta by the A.C.T. last winter, the series will raise funds for the Alberta Crippled Children's Fund.

Programs will be held every Saturday night from Northern Alberta community centres. Nearly every type of artistic talent will be featured by local artists in each community in the weekly shows.

Prizes will be awarded winners each performing in a grand finale will be held in the spring at which winners of each show will take part.

Portions of the programs will be broadcast over radio station C.F.R.N.

## Work Commencing On New Buildings

NEW YORK, Sept. 13.—(AP)—Excavating will start Tuesday for the new National Army headquarters in east-side Manhattan.

The U.S. announced Saturday that it had awarded the military contracting company a \$500,000 contract for the excavation of the site for the new building.

The U.S. project will cost \$65,000,000.

## City Youth Takes Deaf Instruction

Course on instruction of deaf persons was taken by 18-year-old Bruce Jack, son of Mr. and Mrs. Norman Jack, of 1111 11th St. at Gallatin College, Washington, D.C.

A graduate of Mackay School in the deaf in Montreal, Mr. Jack will be the second Edmontonian to attend the Washington school. First, V. J. Herta graduate from the college was Herman Johnson, Chateau, now a chemist in Chicago.

## Motorcycles Hospitalize 3

Three persons are in hospital, one seriously injured, after a motorcycle struck a pedestrian on Jasper avenue near 15th street Sunday evening.

Injured were: Alex Tschak, 1018 94 street, aged 19, fractured leg and arm, head cuts and possible fracture of the skull.

Raymond Crofton, 1008 97 street, motorcycle driver, facial injuries.

Madeline Groves, motorcycle passenger, 1003 111 street, lacerations and bruises to the face, hands and body.

Authorities at the General hospital reported Tschak's condition as "very serious" this morning.

According to police reports, Crofton was riding on one of four motorcycles along Jasper avenue when Tschak attempted to cross the avenue.

Two of the bicycles successfully passed the pedestrian, but the third, and last, was stopped by Crofton, struck him and knocked him to the ground when Tschak is believed to have been crossing the street.

In the crash Crofton and Miss Groves were thrown from the machine.

The three persons were taken to the General hospital by city ambulance.

## Highway Commission Declared Great Need

Executive officers of Trans-Canada Highway System Association, Yellowhead Route, commended Hon. James G. Gardiner's statement that the first consideration of organizations should be construction of a federal highway system and not its route.

However, they expressed the opinion that the paramount requirement toward the construction of this highway was the creation of a federal highway commission.

This commission would be a regulatory body charged with the task of finding construction funds, setting standards of construction and other matters.

Agriculture Minister Gardiner made his statement at a Nelson, B.C. meeting where a three-day session was assembled.

The caravan was operated by the Northern Trans-Canada Highway Association.

He said campaigning for a federal highway should come at unit, and not from north or south. He intimated to southern boosters they would get their south road much quicker if they asked for federal roads through the centre and north as well.

Major Harry Ainlay stated the Yellowhead Route association had always made it clear that the most important thing was to get a federal, trans-Canada highway. He added the route this highway takes is secondary.

E. T. Love, secretary of the Yellowhead route association, said there should be at least two hard-surfaced highways to adequately serve the nation.

## Dr. McGugan Will Speak At American Hospital Meeting

Dr. A. C. McGugan, superintendent of the University of Alberta Hospital will be one of a number of speakers at the 50th anniversary convention of the American Hospital Association in Atlantic City, N.J., September 20-22.

Dr. McGugan will discuss the subject, "Would Two Levels of Nursing be Preferable?" in the morning session of the convention, September 21.

Theme of the convention will be "Hospitals—Vital to Better Living." Ten thousand trustees, administrators and department heads from throughout the U.S. and Canada are expected to attend.

## Campaign Starts

CALGARY, Sept. 13.—(CP)—A six-week drive to raise \$100,000 for Calgary's New Boy Scout headquarters will be launched today.

## Diphtheria Appears As Polio Cases Fewer

Incidence of poliomyelitis cases remained low today, but diphtheria entered the Edmonton health picture.

Second diphtheria case within a week was reported to city health department today. An eight-year-old boy from the central section of Edmonton was the latest victim struck by the childhood disease.

Previous case was reported last week.

**ORIGIN UNKNOWN**  
Health authorities have been unable to trace the origin of the diphtheria, but are investigating.

One suspected case of polio was reported today, that of a girl five years old who took sick Friday, but her malady is not yet definitely determined.

Otherwise no cases of polio were reported in Edmonton over the weekend, leaving the city total at 41 cases of polio in 1944.

Four new cases were reported by provincial health authorities today bringing the provincial total of polio sufferers to 225.

**ARE NEW CASES**  
New cases are those of a girl of 12 years from Ponoka rural, put of 16 months from West Jasper place boy of three from Fort Saskatchewan and a woman of 32 from Barrhead.

Incidence of communicable diseases in Edmonton remained the same, according to weekly report submitted to the local board of health by Dr. G. M. Little, medical health officer.

Total of 24 cases were reported last week, compared with 24 reported the previous week. Of these, 10 were chickenpox, diphtheria, measles, rubella, polio and scarlet fever, cases occurred.

Polio cases decreased during last week, leaving 41 cases compared with 41 the week before.

## Senior Officers Of RCAF Coming

A party of senior RCAF officers from Ottawa headed by Air Vice-Marshal J. L. Pratt, are scheduled to arrive in Edmonton this afternoon within an hour of several North West Air Command stations.

AVM Pratt will be accompanied by six other officers and will have a conference with AVM K. M. Bathurst, air officer commanding, North West Air Command. AVM Pratt is air member for personnel at RCAF headquarters, Ottawa.

## Registration At 'U' Sept. 20

University of Alberta registration begins Monday, Sept. 20 in preparation for the coming 1945 session.

Second, third and fourth year medical students registered last week and began classes, but all other students will register next week.

Freshmen will register Monday and Tuesday, and so on first-year medical students, with sophomores, juniors and seniors registering during the remainder of next week.

No classes will start until Monday, Sept. 27, except for medical students who have already started.

Registration is expected to remain about the same as last year. Between 800 and 1,200 freshmen are expected, and their numbers will about equal the students who graduated at convocation last May.

## EX-MIL Dies

MONTEAL, Sept. 13.—(CP)—Registration is expected to remain about the same as last year. Between 800 and 1,200 freshmen are expected, and their numbers will about equal the students who graduated at convocation last May.

member of the New Brunswick legislative assembly, died Saturday afternoon his heart in Lake of Two Mountains, que.

**The RCAF**  
will train you to become an expert technician

In the post-war R.C.A.F. there are many trades which provide ample scope for the ambitious young Canadian to prepare himself for a progressive future in the technical, radio, or clerical fields.

This is the day when the men with special skill and training have the advantage over the other fellow.

The R.C.A.F. offers you just the training and opportunity you are looking for.

**EARN WHILE YOU LEARN**  
Rates of pay in the R.C.A.F. have recently been increased and you can add to your monthly income by improving your trade proficiency and by promotion to higher rank.

- Technical trade training.
- Full opportunity for advancement.
- Progressive pay increments.
- Provision for religious welfare.
- Medical and dental care.
- Sports and recreational facilities.
- 20 days vacation a year with full pay.
- Childing privilege.
- Retirement income assured.

and remember... the R.C.A.F. offers you continuous employment and pay.

**Gas Explosion Kills 3, Wounds 10**  
NEW YORK, Sept. 13.—(AP)—Three persons were killed and 10 injured—none severely—early today in a terrific gas explosion that wrecked the fourth and fifth floors of a 17-story Upper Manhattan apartment house.

Some of the injured were children cut by flying glass blown from shattered windows of the 110-family building.

Police said the blast apparently was caused by the determination of one of the victims—Eugene Hurley, 25—to commit suicide by gas. Hurley, unemployed, had threatened suicide, police said, and four gas jets were found turned on in his wrecked apartment.

The other victims, identified by police as Arthur Yarnoff, 28, and his wife, Isabella, 28, lived in a one-room apartment above Hurley's.

The blast demolished 12 apartment units.

**YOU GET ALL THESE IN THE RCAF**

## Polio Cases Soar To New U.S. Record

WASHINGTON, Sept. 12.—(AP)—The current outbreak of polio myelitis in the United States could turn out to be the country's worst in more than 20 years.

Already more cases of the disease, popularly called polio or infantile paralysis, have been reported than by the same date in 1946. And 1948 saw the worst epidemic since the 1955 peak of nearly 50,000 cases.

During the week ended Saturday, Sept. 4, the last tabulated 1,312 new cases were reported.

## Volunteers Needed For Flying Duties

LONDON, Sept. 12.—(Reuters)—Air secretary Arthur Henderson recently appealed today for volunteers for the RAF and announced a new plan designed to offer wide opportunity to recruits.

His heart bristled a great deal about the importance of the "sport drive," the minister told the House of Commons in a speech today. "Those who join the RAF are ensuring the success of a vital effort, the establishment of a general confidence in Britain's ability and ability to defend her security and resist aggression."

"Without that confidence all our efforts to improve the conditions of our people might well be in vain."

Men may volunteer to become air crew signallers, engineers and gunners as well as pilots and navigators.

The period of regular service (previously five years for pilot and navigators) has been extended to eight years.

## Jerusalem Sunday Worst In Weeks

AMMAN, Trans-Jordan, Sept. 13.—(AP)—Jerusalem yesterday underwent its worst Sunday in weeks as mortars killed three civilians at the synagogue where the body of a slain Arab Legion soldier was being held.

A dispatch from the Israeli side in Jerusalem said nine Jews were killed during the heaviest shelling since the latest truce went into effect eight weeks ago.

An Arab Legion communiqué said 23 persons were hurt, including 15 women attending Sunday services, when shells fell in the vicinity of the Armenian church in the old city.

The communiqué said six children were killed by a constant fire of UN observers called on the Jews to halt.

## Operetta Producer, D'Oyly Carte Dies

LONDON, Sept. 12.—(UPI)—Rupert D'Oyly Carte, proprietor of the D'Oyly Carte Opera Company and chairman of a chain of London luxury hotels, died today aged 71.

The opera company which owes its name to Gilbert and Sullivan was formed in 1867 by his father, John D'Oyly Carte. The company has visited Canada and the United States on several occasions.

The hotel chain comprises the Savoy, the Berkeley and New Chichester hotels. D'Oyly Carte died in his suite in the Savoy.

In 1908 C. Archibald Fraser, then master of a famous night club, could fly.

## SOBER AS JUDGES, TO WATCH LIQUOR GO

CHICAGO, Sept. 12.—(AP)—Chicago's municipal judges are throwing a drinking party Sept. 23 but not one of them will touch a drop.

The party was suggested by the city's traffic expert, Franklin M. Krentz, to demonstrate the reliability of chemical tests for intoxication.

Krentz wants to prove that so-called drunkometer tests are accurate enough to stand up in court. He told a meeting of judges:

"I would like to bring four to six subjects before the judges' meeting, have them drink good hard liquor in varying amounts, then have a qualified toxicologist analyze the results."

"A splendid idea," Chief Justice Edward Scheffler exclaimed. The other judges agreed and the date was set.

## Snub to Visitors Brings B.C. Furore

### Government House Closed In Face of U.S. Law Body

VICTORIA, Sept. 12.—(UPI)—A representation may be made to the British Columbia cabinet protesting that B.C. has been lacking in hospitality to visiting "friendly neighbors." It was learned today.

While government officials refuse to comment, the representation is reported to be specifically concerned with the "closure" Friday of Government House grounds and facilities for the entertainment of 300 delegates of the American Bar Association.

The issue, observers here say, is whether the lieutenant-governor of a province is entitled to privacy in his home.

The United States lawyers had just concluded their convention at Seattle and chose Victoria as a side trip.

It is understood the Canadian Bar Association suggested the visit because of the shortage of hotels, paper cups were used by the 1,000-odd coffee-drinking guests.

One official, explaining the lieutenant-governor's refusal to permit Government House to be used for the reception, said: "Previous lieutenant-governors have had a home either here or in Vancouver. The present incumbent has no home except Government House and, consequently, feels he is entitled to privacy."

More than 100 delegates of the U.S. Chamber of Commerce are due here Sept. 25, and it is learned, a request for a reception at Government House has been refused.

Renovations at the vice-regal residence and house staff on vacation were given as reasons for the refusal.

His Honor, who left on a trip to England a few days ago, is reported to have refused use of the house.

The provincial secretary's department then requisitioned the Reginald Hotel for the reception.

**FOURTH CABINET** for France within the last seven weeks was formed Saturday by Premier Henri Queux.

## U.S. Base In Britain Gets Staff Of 2,000

LIVERPOOL, England, Sept. 12.—(Reuters)—Two thousand officers and men of the United States Air Force who are to set up a major command base in Britain at Burton Wood, Cheshire, arrived Sunday in the army transport Charles N. Glimper and Lieutenant Alexander R. Nimmer.

## Survivors of Circus Ship Reach Curacao

WILLEMSTAD, Curacao, Sept. 12.—(AP)—The Norwegian motor vessel Varsviken arrived Sunday with 12 survivors of the circus ship Rusevka, which went down in a storm off Colombia Sept. 1. Forty-four other persons have been listed as lost in the wreck.

Six of the survivors were taken to hospital for observation. The others were included three crew members and nine passengers from the ill-fated 140-foot vessel.

A crew member from the Rusevka said shooting was heard at 2 a.m. Sept. 7 and searchlights loomed in the distance. He said the ship was hit by a large wave and he went without food and water for a week.

## PAPA PREPARED; THIRD TWIN SET

SYRACUSE, N.Y., Sept. 12.—(AP)—Mrs. Norman Williams, 36, of nearby Baldwinsville, gave birth Saturday to her third consecutive set of twins.

The babies, both boys, weighed 3 pounds, 12 ounces and 4 pounds, 6 ounces. They have been named James and Martin, respectively.

"I expected I even thought a double supply of cigars," the father calmly announced.

## Viennese Abduct Vienna Woman

VIENNA, Sept. 12.—(AP)—The Socialist newspaper Arbeiterzeitung reported Sunday that a young woman, apparently in Austria, made an unsuccessful attempt to escape from two Russian officers last week in Stalingrad, a World War II battle site.

The woman, leaping from an automobile, fled herself on the ground and screamed, "I'm being kidnapped, help me!"

The young woman's officers forced the woman back into the car.

## NICKEL, NOT TICKET FOR PARK ERRORS

LA GRANDE, Ore., Sept. 12.—(AP)—In this small town, where the policemen drop nickels in the parking meter for you, courtesy is proving mighty profitable.

It's yielded the Chamber of Commerce the startling interest rate of six per cent a month.

In most towns when a policeman spots a red parking meter, he hands out a ticket. But in La Grande—where the policemen offered last month—the handout is a nickel instead of a ticket. The meter, along with a "courtesy envelope" in which the municipal can send the nickel back.

But the materials have been better than a nickel back. Some sent quarters. Many sent dimes. Two sent 50-cent pieces. One sent \$1.

The La Grande Chamber of Commerce launched the program in early August with a capital investment of \$25. Not after giving away nickels all month, the capital has grown to \$246.

## 3,000 Homeless

BATAVIA, N.J., Sept. 12.—(AP)—A flood sweeping a 200-foot-diameter Bataavia Sunday destroyed more than 200 houses and made 3,000 homeless. Police blamed carelessness with gasoline for the blaze.

### Miles ahead in COMFORT, BEAUTY, PERFORMANCE.

Everything in a "nut-shell" on this terrific instrument panel. All instruments clustered directly in front of the driver. "Black-light" illumination gives a soft, diffused glow—eliminates glare—makes night driving safer.

Why does Meteor ride so velvet-smooth—and "cat-fault" so softly over the bumps? Double-drop frame with low centre of gravity gives road-hugging stability. Meteor's beautifully balanced system of springing, shock absorbers and individual front wheel suspension complete Meteor's "glide-ride".

Broad, low, beautiful. From road to roof Meteor measures just 63 inches. Artistic, big-car grille. It's a thrill to drive a Meteor. It's a joy to ride in one. See this sensational new car at your Meteor dealer's. (White Meteor with tires optional at extra cost.)

Be miles ahead with **Meteor**

There's power to spare—100-hp. Meteor engine. Three-point rubber engine mounting absorbs vibration.

Fresh air easily controlled through Meteor's dual-draft, built-in ventilation system.

A big, spacious trunk—19 cu. ft. of usable space. Spare tire is accessible without removing the luggage. Meteor is roomy throughout—out-rider seat 5 feet wide.

TENDERS FOR  
GENERAL CON-  
STRUCTION OF  
UNIVERSITY OF  
ALBERTA  
HOSPITAL ADDITION BUILD-  
ING AT EDMONTON, ALBERTA

Sealed tenders to be received by the  
Director of the University of Alberta  
Hospital Addition Building at Edmonton,  
Alberta, will be received up to 11  
o'clock a.m. Monday, October 18, 1946.  
Plans and specifications may be had  
on application to G. S. Macdonald,  
Architect, 324 Tupper Building, Ed-  
monton, on deposit of \$5.00 (non-refundable).  
Tenders must be accompanied by a  
check for \$5.00, which will be returned  
to the tenderer if the tender is not  
accepted. The lowest or lowest tenders  
will be accepted.

Each tender must be accompanied by  
a check for \$5.00 (non-refundable).  
Successful tenderers will be required  
to give a bond of \$10,000.00. The  
bond must be in the form of a  
check for \$10,000.00, payable to the  
University of Alberta. The bond must  
be accompanied by a check for \$5.00.  
The lowest or lowest tenders will be  
accepted.
